PERSONAL PROJECTS

Traveloga
React - NodeJS - Express - MongoDB

A MERN stack e-commerce website designed with Figma. Making it full stack was certainly difficult but memorable.

SharedNotes
React - Typescript - Firebase

Another fullstack website where you can create notes, tasks and reminders. Notes can be shared to other people. Firebase was my biggest problem because its docs are outdated and lacking.

My Portfolio
React - Typescript - NextJS

A fullstack website that showcases my skills and projects. I've been very eager to learn NextJs and I've been enjoying it ever since.

SOFT SKILLS

- Time Management
- Communication
- Problem Solving
- Creativity
- Attention to Detail

EDUCATION

2021 - current
AMA University
Bachelor of Science in Information Technologu

2015 - 2021
Muntinlupa Science Highschool
